

# How to Trade Cryptocurrency for Free

Trading cryptocurrency for free can be possible through various strategies and platforms. Here are a few ways to trade cryptocurrency without incurring fees:

- **Zero-Fee Exchanges**

NavExM is the Next-Generation Crypto Exchange where you can trade your crypto for without any transaction fees. Not only Free Trade, NavExM rewards its community members with cashback benefits of up to 0.10% of the trade value on each trade, which is distributed to both makers and takers.

- **Wallet-to-Wallet Transfers**

: If you're trading directly with someone you trust, you can perform wallet-to-wallet transfers of cryptocurrencies within wallet of the same exchange. This eliminates exchange fees .

- **Mining Rewards:**

If you're a cryptocurrency miner, you can earn coins without trading. However, mining involves staking, significant setup and operational costs.

- **Staking**

Some Exchange offer staking rewards, where you can earn additional coins by "staking" in that crypto exchange. This is not trading per se, but it's a way to accumulate more coins.

- **AirDrops**

Occasionally, cryptocurrency projects distribute free tokens to holders of a particular cryptocurrency. Participate in such programs to receive free tokens.

- **Peer-to-Peer Trading**

You can trade with individuals through peer-to-peer platforms where transaction is free and no fees charged by exchanges.
